

We the people

We the people declare that reading is freedom.

The individuals and businesses featured here have "signed on" to support literacy in Middle Tennessee. We thank them for their contribution to the Tennessee's Newspaper In Education program and for helping to prepare our next generation to meet the challenges of our ever-changing world.

Newspaper In Education provides more than 1 million newspapers along with educational materials and services to nearly 500 schools throughout Middle Tennessee each year. The community and business leaders who have lent their names to this page affirm the importance of reading in the lives of our youth.
